Garrett Geary, of No. 23 South Elliott Piace, gave bonds for him.

The indictments are all drawn in substantially the same form, and charge intent to cheat and defraud the city or the county in presenting or in auditing and paying false, exorbitant and fraudulent bills. The names of these witnesses appear on the back of each indictment: James H. Pigott, Patrick Ross, Sylvester Ross, A. C. Snyder, George F. Miller, Frederick Sciiert, C. H. Southard, F. W. Starr, W. J. D. Campbell, Henry Clayton, Habert Smith, M. J. Campbell, Henry Clayton, Habert Smith, M. J. Campbell, Henry Clayton, Habert Smith, M. J. Campbell, David A. Boody, William F. Wafer, Arthur J. Heaney and Stephen Stovey.

Of the men indicted all are Democrats save Supervisors Bensen, Lockwood, Extance and F. W. Weeks, who are Republicans. John Y. McKane was a Democratic Presidential elector in the last election. Allerman Wafer was formerly member of Assembly. None of the indicted men would talk yesterday in regard to their action. The most of them have already secured counsel. They will appear to plead on Tuesday, and County Judge Moore will fix a day for trial. The prosecution is in the hands of District Attorney Ridgway.

Mayor Boody had no reply ready yesterday to the charges affecting his administration of the affairs of the city. His friends say he has been hoodwinked in his action permitting the city government to be opened to such a scandal, and depended upon bad legal advice. Corporation Counsel Jenks said yesteday that he had not received official notice of the aution of the Grand Jury in directing him to bring suits against the persons to whom money has been illegally paid, and against the Mayor of the city, Controller, the City Anditor and Board of Aldermen, for and in behalf of the city of Brooklyn, in order that the frauds illegally drawn from t

NO CHANCE OF FRAUD IN THIS CITY. COMMISSIONER WARLE EXPLAINS THE SAFE-GUARDS AGAINST EXTRAVAGANCE HERE.

Commissioner Charles G. F. Wahle, who was sec-retary of the Columbian Celebration Committee of New-York, in speaking of the indictment of Brook lyn officials in connection with fraudulent expenditures for its celebration, said yesterday that the situation and methods followed in New-York were wholly dissimilar from those in Brooklyn.

"The total cost of the celebration here," said Mr.

Wahle, "was \$183,669 61, as reported by the Auditing Committee. This committee was composed of George J. Gould, John H. Starin and David Banks, and every MII was examined and approved by this committee. The integrity of these gentlemen will not, I think, be questioned in this community. The bills paid up to April 14 amounted to \$36,996 87 only, leaving a balance still due of \$146,672 74. To meet this the treasurer of the Celebration Committee, J. Edward Simmons, has in his hands \$118,318 13, leaving a deficit of \$28,354 61, or adding the city bands appropriated under the act of the Legislature, which under the ruling of the Controller would be refunded, \$30,000, a total of \$78,354 GL

"The committee on the sale of seats, of which ex-Mayor William H. Wickham is chairman, reported a balance collected of \$50,000, after paying the legitimate expenses it incurred, including the wages of the ushers and special police, and the cost of printing and advertising, with the commissions allowed Brentano. This \$50,000 is included in the sum of \$118,318 13 in the hands of the treasurer.

"The act of the Legislature authorizing the celebration has been carefully followed by the committee and its officers in adjusting its affairs, and I believe that there has been no opportunity for extravagant or fraudulent expenditures. The trouble with the Brooklyn people was that they went ahead without lawful authority to expend large sums of money, and are now brought up to explain their misdoing. The cases of the two cities and the methods of conducting the business are not at all parallel.

"The whole matter of our expenditures must now come before the Legislature, when it is asked to provide for the deficiency, and if there has been anything wrong, which is highly improbable, it will stand a good chance to come out."

RAPID TRANSIT PROBLEMS.

LABOR LEADERS TO DISCUSS THEM.

RESOLUTIONS TO BE PRESENTED AT MEETINGS TO-DAY IN FAVOR OF THE CITY BUILD-

ING AN UNDERGROUND ROAD. Rapid transit problems will receive attention to-day. There is a strong feeling among labor organizations in favor of the underground system. The strength of this feeling will be tested this afternoon at the regular meeting of the Central Labor Union, in Clarendon Hall, No. 114 East The meeting to-day being the first meeting of the Union since the week before Christmas will undoubtedly be largely attended and the discussion of the relative merits of an underground system and an extension of the present system of elevated roads is sure to be of a lively and interesting character. But the chief discussion will be upon a resolution which Theodore F. Cuno will offer. Mr. Cuno believes that the city ought to construct and operate an underground railroad. His resolution will favor such a step. Many prominent labor leaders, among them probably samuel Gompets, presi-dent of the American Federation of Labor, will at-

While the leaders, as a rule, are likely to favor Mr. Cuno's resolution, there is a strong feeling among the rank and file of the organizations against what they term "paternalism" in municipal government These latter are opponents of the thieving methodof Tammany Hall political "shysters," which is a term frequently applied to Tammany Hall politicians by the workingmen. A resolution similar to Mr. Cano's has been prepared for introduction at the meeting of the Central Labor Federation, at No. 68 East Fourt st., to-day. If it is introduced it will be carried with a rush, for the members of the Federation are all socialists. Whether the question of city ownership of an underground rathroad will be discussed to-day at the meeting of District Assembly No. 49, Knights o Labor, at No. 52 Union Square, could not be learned

District Assembly No. 49 is the most powerful representative body of Knights of Labor in this city. If the resolutions are adopted by the Central Labor Find and the Central Labor Federation a committee from each body will appear before the floard of Rapid Transit Railroad Commissioners at their meeting on Tuesday afternoon.

The commissioners expect many committees to appear before them on Tuesday, with all sorts of resoin tions and schemes. Mr. Steinway expects that the Commission will be overwhelmed with resolutions at all its meetings until the Commissioners decide on some plan for real rapid transit, which, Mr. Steinway stoutly declares, can never be effected by an elevated iron or steel structure, whether it be an extension of the present system or an entirely distinct system. It was rumored vesterias that a well known Assemblyman from this city had prepared a bill which be will introduce this week creating an independent rapid transit commission with full power to construct for the city an undergrount rairoad. The rumor could not be traced to any reliable source.

LAMONT FOR THE CABINET.

BUT HE WILL NOT BE POSTMASTER-GENERAL -SYMPPER CHIEFS DISTURBED BY

TOMETHING.

HE WILL SURELY BE A MEMBER OF IT.

Yesterday was a busy one with Mr. Cleveland. He had his hands full with discussions about the policy which his Administration ought to parsue on various questions, most prominent among them being that regarding silver; the formation of his Cabinet, and other matters of importance. Congressman Michael D. Harter, of Ohio, arrived to confer with the Presi dent-elect about his proposition now pending to sus-pend the purchase of silver by the Gov ernment until the value of silver for colnagpurposes can be settled by an international agreement Mr. Harter placed his views before Mr. Cleveland and argued that his only show for making a succ of his Administration was by adopting them. It was said that the Pre-Ident-elect assured Mr. Harter that he agreed with him on many points and promised to give grave consideration to his advice.

Another well-known Congressman who saw Mr Cleveland yesterday was William C. P. Prockinslige. of Kentucky, who is extremely anxious to have Senate Carlisle accept the profered portfolio of the Treas ury, so that a vacancy may be created in Kentucky' senate representation. In other words, Mr. Brick imidge would like to be Mr. Carlisle's successor Mr. Breckinridge is buoyant with hope that Mr. Ca lisle will accept, and that the Kentucky Lexislature

will choose the Congressman in his stead.

The stirring of the Cabinet pool has brought out the fact with a degree of authenticity that admits of little dispute that Colonel Lamont will be representative of New-York State in the Cabinet, but it will not be as Pestmaster-General, as some political seers have confidently predicted. There is entirely too much turmoil over patronage to suit the Celonel. He wants something more congental than a job of deciding who are to have the second and third class postoffices over the country. It is probable that Mr. Cleveland will put him in charge of either the War or the Navy Department. Mr. Whitney, who made something of a reputation in the latter pince. thinks that it would sait him best and has so advised Mr. Cleveland. The Colonel will be greatly missed in the big street raliway syndicate in New-York, in which he has begun to make himself felt as a traction magnate, but his associates will have to give him up to the service of his country for the next

THE POLITICAL SITUATION IN CHICAGO. EX-MAYOR ROCHE THINGS THE REPUBLICANT WILL WIN IN THE SPRING.

John A. Roche, ex-Mayor of Chicago, who is at th Windsor Hotel, says that the various Democratic factions of that city are making elaborate prepara tions for a lively fight among themselves to take place in the spring elections. From the present appear ance of things, Mr. Rische says, it looks as if there would be three Democratic candidates for Mayor in the who each have a large Democratic following, are still bitter enemies, and ex Mayor Cregier has announce his intention, so Mr. Roche says, of entering the mayoralty race whether he is the choice of the con vention or not. At the last munletpal election Mr. Cregier was the regular nondace, and the Harrison following, who belted the convention, placed a ticket of their own in the field. Both candidates polled a larg vote, the Democratic strength being preity equal divided, but the Republican nomince, Memsterd Wash-burn, was the victor. This time, it is understood as Mr. Cregier is aware that his chances in the declared that he will run on an independent ticket "Oh, we will undoubtedly have a folly time," said

Mr. Roche, "and as the friends of Washington Hom ing, who has a large German following, have no unced their intention of entering Mr. Hessing in the race, we hope to win with a Republican estimated. THE TROUBLE OVER THE DINNER TO COLONEL

CAVANAGH RENEWED. The trouble in the 60th Regiment over the recen dinuer given in honor of Colonel Cavanagh has been stirred up anew, and the smoldering embers of the previous conflict have been fanned into flame again A resolution was passed on Friday night, at a secret meeting of the board of officers of the 60th Regi-ment, in which the adjutant of the regiment was requested to convey to General Martin T. McMahon the thanks of the board of officers for his acceptance of their invitation to preside at the dinner to Colonel Cavanagh, and to express their appreciation of his delicacy of feeling and their regret that they were deprived of his presence.

This resolution having reached the public despite an obligation of secrecy upon the part of those preent, Lieutenant Colonel James Moran, who considers the resolution a blow at him, directed a letter to Colonel Cavanagh yesterday, which he has made pub lie. In this communication Colonel Moran calls Colonel Cavanagh's attention to the violacon of the obligation to secrecy, and says he believes he is relieved from fish obligation and that an explanation is due to General McMahon from him. He incluses a letter to the General which was also made public last night. In this letter Colonel Moran says that he indorses all that part of the resolution relating to General Continuing the letter says: McMahon personally. "If it should be made to appear in any communication which reaches you that this resolution was unanimously indorsed by the officers, you will understand why I deny this when I call your attention to the memorandum which accompanied the resolution. then quotes this memorandum, the dinner committee they agreed upon General McMahon as man best fitted to preside at the dinner, as he was the predecessor and life-long friend of Colonel Cavanugh. money? Why not do the same when you buy medicine?

Dr. Pierce's Golden Medical Discovery is sold on that plan. It's the only blood-purifier so certain and effective that it can be guaranteed to benefit or cure, in every case, or you have your money

It's not like the ordinary spring medicines or sarsaparillas. All the year round, it cleanses, builds up, and invigorates the system. If you're bilious, run-down, or dyspeptic, or have any blood-taint, nothing can equal it as a remedy.

ore the Supreme Court of the City and County of New-York to morrow morning by Henry Peyser, of No. 41 Essex-st., against the Coney Island and Brooklyn trolley road, on account of an electric shock Mr. Peyser received while riding on that road, from the effects of which he fell under the cars and both his feet were cut off. The accident occurred May 30, 1891. Mr. Hershfield, of Horwitz, Hershfield & Co., who are the lawyers for the plaintiff, said to a Tribune reporter

"The train which Peyser was on consisted of a motor and an ordinary summer street-car with open sides. It being a boliday, the cars were jammed with In going around a corner at full speed the car people. In going around a corner at full speed the cul-lolted and Peyser, who was standing, was thrown outof the car. He caught the metal bandle of the front dashboard, and when his feet dragged on the groun he received an electric shock which made him uncon scious, and he fell off and the wheels passed over hi feet. Had it not been for the electric shock he would have hung on the dashboard until the car stopped. He was nineteen years old, and the only child and support of his father, who lost a leg in the Crof. War.

The trolley people make a general denial of all responsibility for the accident.

OBITUARY.

EUGENE MEHLER. Eugene Mehler, the Stock Exchange member of th

firm of Lazard Freres, at No. 10 Wall-st., died yester day morning at his home, No. 519 West End ave. Last summer he was sick with intestinal troubles, from which he recovered after a serious illness. The resumed his business duties, and apparently his health was restored. His last fatal tilness lasted only a few days and his death was wholly unexpected. Mehler was an "expert" in foreign exchange and in this line of business he was virtually the head of the house of Lazard Freres. He was well estremet among his business associates for his straightforwardness and good faith. He was born in Bingen, Germany, forty two years ago. About twenty-five years ago he came to this country and for many years was connected with the banking house of Speyer & Co., at one time having an interest there. Since 1883 he had been connecte with Lazard Freres, but did not become a full pariner until 1858. He had been a member of the Stock Exchange since August 30, 1888. Mr. Mehler was a member of the Chamber of Commerce, of the Reform Club and of the Leiderkranz Society. He left a wife and four children. The funeral arrangements have

Mr. Mehler was a linguist, speaking French and Spanish nearly as well as German, his mother tongue, and English. He had pronounced literary tastes, and kept himself thoroughly in touch with the intellectual development of the century. The immediate predecessors of Mr. Mehler at the head of the New-York branch of the Lazard firm were Well, who was made a Knight of the Legion of Honor by the French Government, and Joseph Aron, now a banker in Paris, author of "The Two Sister Republics," a book which he published in New-York, and of a work on American mining interests, which he has just dedicated to President Harrison.
